

## RECENT ENTOMOLOGICAL LITERATURE

**BOUCHARD, P. and STEINER, W.E., Jr.**

- 2004 First descriptions of Coelometopini pupae (Coleoptera: Tenebrionidae) from Australia, southeast Asia and the Pacific region, with comments on phylogenetic relationships and antipredator adaptations. *Systematic Entomology* 29: 101-114.

**BRABY, M.F.**

- 2004 *The complete field guide to butterflies of Australia*. CSIRO Publishing; x + 340 pp.  
2005 Provisional checklist of genera of the Pieridae (Lepidoptera: Papilionoidea). *Zootaxa* 832: 1-16.

**EASTWOOD, R.**

- 2004 Successive replacement of tending ant species at aggregations of scale insects (Hemiptera: Margarodidae and Eriococcidae) on *Eucalyptus* in south-east Queensland. *Australian Journal of Entomology* 43(1): 1-4.

**EMELJANOV, A.F. and FLETCHER, M.J.**

- 2004 *Hemielissum evansi*, a new genus and species of Breddiniolini (Hemiptera: Fulgoromorpha), being the first Australian record of the tribe, with a discussion of the taxonomic position of the Breddiniolini. *Australian Journal of Entomology* 43(1): 38-42.

**HUXHAM, K.A.**

- 2004 A unique fruit fly monitoring and control system - Australia's frontline of northern defence. Pp 331-334, in: *Proceedings of 6th International Fruit Fly Symposium*, 6-10 May 2002, Stellenbosch, South Africa.

**KONDO, K., SHINKAWA, S. and MATSUKA, H.**

- 2003 Molecular systematics of birdwing butterflies (Papilionidae) inferred from mitochondrial ND5 gene. *Journal of the Lepidopterists' Society* 57(1): 17-24.

**MOUND, L.A.**

- 2004 Australian long-tailed gall thrips (Thysanoptera: Phlaothripinae, Lecuweniini), with comments on related Old World taxa. *Australian Journal of Entomology* 43(1): 28-37.

**NESER, O.C. and PRINSLOO, G.L.**

- 2004 Seed-feeding species of *Bruchophagus* Ashmead (Hymenoptera: Eurytomidae) associated with native Australian acacias that are invasive in South Africa, with the description of two new species. *Australian Journal of Entomology* 43(1): 46-56.

**PAINI, D.R.**

- 2004 Nesting biology of an Australian resin bee (*Megachile* sp.; Hymenoptera: Megachilidae): a study using trap nests. *Australian Journal of Entomology* 43(1): 10-15.

**PIKE, N.**

- 2004 Natural incidence of fruit flies with character states intermediate to those of the sibling species *Bactrocera tryoni* (Froggatt) and *B. neohumeralis* (Hardy) (Diptera: Tephritidae). *Australian Journal of Entomology* 43(1): 23-27.

**PIKE, N., WANG, W.Y.S. and MEATS, A.**

- 2003 The likely fate of hybrids of *Bactrocera tryoni* and *Bactrocera neohumeralis*. *Heredity* 90: 356-370.

**RENTZ, D.C.F., LEWIS, R.C., SU, Y.N. and UPTON, M.S.**

- 2004 *A guide to Australian grasshoppers and locusts*. Natural History Publications (Borneo), Kota Kinabalu; 418 pp.

**ROBSON, S.K.A.**

- 2004 Comparative nesting biology of two species of Australian lithocolous ants: *Polyrhachis* (*Hedomyrma*) *turneri* Forel and *P. (Hagiomyrma) thusnelda* Forel (Hymenoptera: Formicidae: Formicinae). *Australian Journal of Entomology* 43(1): 5-9.
